**Hello, Dear Team**

## Together, We Built This: 16 Years of TekWissen & A Future We Shape By Rajeev Senta Sixteen years ago

I made one of the biggest decisions of my life to step away from a secure job and build something from scratch. I did not have all the answers, but I had a vision, a passion to learn and the courage to try. That's how TekWissen began. The path was not easy. It came with challenges, risks, sleepless nights and moments of doubt. But with every hurdle came growth. With every setback came a deeper understanding. I would not trade those lessons for anything.

As we complete 16 years and also recently celebrate the opening of our very own TekWissen office in Bangalore, I feel an overwhelming sense of pride and gratitude. This new space is not just a milestone it is a symbol of how far we have come, together. I want to take a moment to thank everyone who made this journey possible my family, our incredible TekWissen team, our clients, vendors, partners and all those who stood by us with unwavering support and belief. To everyone who has walked with us, those who were there at the start, those who are shaping our present, and those who will join us in the future.. thank you. Your trust, your hard work and your belief in TekWissen have been the pillars of our journey. This success belongs to all of us.
